

VPG-Seminar WS1920

Dienstags um 17.15 in C419, Theresienstr 41.

Date	Speaker	Title	Affiliation
22.10.19	Roberto Sulpizio	Investigation of transportation and deposition dynamics of volcanic granular flows through laboratory experiments: insights for concentrated Pyroclastic Density Current dynamics	<i>University of Bari (IT)</i>
29.10.19	kein Vortrag		
05.11.19	Kimberly Genareau	t.b.d.	<i>University of Alabama, USA</i>
12.11.19	Sebastian Müller	What does it take to publish in a Nature Journal?	<i>Nature Communications</i>
19.11.19	kein Vortrag		
26.11.19	Khachatur Meliksetian	t.b.d.	<i>Armenian National Academy of Sciences</i>
03.12.19	Laurence Warr	From Ash to Clay: regional and global perspectives	<i>Uni Greifswald, D</i>
10.12.19	AGU		
17.12.19	Adrian Hornby	Nature or nurture? The role of parental texture and fragmentation history on volcanic ash surface development	<i>Ludwig-Maximilians-Universität (LMU), D</i>
07.01.20	t.b.d.		
14.01.20	Arianna Soldati	t.b.d.	<i>Ludwig-Maximilians-Universität (LMU), D</i>
21.01.20	Jon Castro	Lightning-induced geochemical and physical weathering of Cascadian volcanic peaks	<i>Johannes Gutenberg Universität Mainz, D</i>
28.01.20	Dirk Müller	t.b.d.	<i>Ludwig-Maximilians-Universität (LMU), D</i>
